QR CODE ENHANCED DATA TAGS

- In July 2017, Ariel added QR codes to information tags on frames, cylinders and unloaders.
- The QR code links to support resources and tools for specific serial numbered assemblies.
- Information available via your Members Only acct includes: As built configuration, ERs, CTBs, tech manuals, and more.
- The codes are readable by most QR code apps compatible with both QR and Data Matrix bar codes.
- Coming soon: Ariel Operator's App, code reader and mobile support portal.
